FIX PERMISSIONS

The screenshot shows the CWP7pro control panel interface. At the top, there's a header with 'CWP7pro' and a 'min' indicator, along with navigation buttons for 'Dashboard', 'Terminal', and 'FileManager'. Below the header, a sidebar on the left contains a 'Navigation' menu with options like 'User Accounts' and 'Fix Permissions' (highlighted with a blue circle and the number 2). The main content area is titled 'fix_acc_perm' and 'Fix Account Issues & Permissions'. It includes a sub-header 'Fix Account Issues' and a list of options to fix common account/website issues. Each option is accompanied by a checkbox and a description. The options are: 1. Select User (highlighted with a blue circle and the number 3), 2. Fix Permissions (highlighted with a blue circle and the number 4), 3. Internal Server Error (highlighted with a blue circle and the number 5), and 4. Remove AddHandler (highlighted with a blue circle and the number 6). At the bottom, there is a large blue button labeled 'Fix Selected Issues' (highlighted with a blue circle and the number 7).
